Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes, and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to and from the ports on the Upper Lakes. Their own line of Steamboats runs direct to own Dock at Buffalo and all goods contracted by this line for the Upper Lakes will be shipped unless otherwise ordered (or contracted) by *Steamboats*, and Propellers with but one, or possibly two exceptions. The Eckford is the only Line not interested in or committed to a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, whose interest demands the continuance of a line of such a class of Boats. THE WORLD'S FAIR

Green Block, Water St.,
(Between Maiden Lane and Wall Street,)
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, paper and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Stillwell & Montross, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robins [illegible], and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York—Three Stores and their contents destroyed. Deeds before words!

RICH'S SAFES AGAIN!

ELEVEN SAFES of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER,
THE FIRE IN FLETCHER AND PEARL STS., NEW YORK.

New York, Dec. 20, 1851.

Messrs. STEARNS and MARVIN, successors, to C. Rich & Co., No. 146, Water Street, New York—Sirs, when the fire was consuming my place of Business, No. 216, Pearl Street, I was absent in Rensselaer County, testing a new cleaning apparatus in connection with my Excelsior Thrasher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 54 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same office, on the second floor, from which they fell upon crates of earthen ware in the cellar, the ruined safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,900, yet the salvation of my books in your Salamander, with the representatives of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safe in use) to call at the depot 146 Water street, New York, to see the interior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

The Spirits upon the Presidency.

CLEVELAND, July 12, 1852.

There is a great deal of interest felt here just now in the result of a Spiritual Circle, held a few evenings since at the house of Rev. Mr. Thomas. The sitting of the Spiritual Convention in this city, had greatly quickened the public pulse, and it was not strange that when the Circle I speak of was formed, that the interest of the anxious should have taken the direction of politics, and been made to connect with the distinguished nominee of the WHIG Party. The voters upon the Western Reserve apparently wish to support Gen. SCOTT, but they are conscience-sensitive upon the question of Slavery. It may be fair to presume that the feeling manifested in the Circle, is indicative of the Whig sentiment throughout the north of Ohio. Devoted to what I consider loftier pursuits than the arrangement of secular Society, I feel but little interest in the merely political character of this spiritual manifestation. But it may have an importance to you.

At an early hour the rappings indicated the presence of the spirits, and the medium, Mrs. Finch, of Medina, took her seat. Two parlors thrown open, through folding doors, gave us sufficient room—though it was occupied in part by discordant persons and unformed lads—who ought not to have been present. To pass over a deeply interesting communion with Jonah, and a very refreshing season with two pious carpenters, who wrought upon the Ark, Mr. Ashley, of Unionville, requested to be put in communication with the spirit of Count ROCHAMBEAU. He was the Admiral of a French squadron, sent to the United States with munitions and troops, and under orders to co-operate with our army, during our war of Independence. The spirit of the Count came present.

Mr. Ashley.—'Does not the life of a warrior disqualify him for the duties of a civil office so intricate and vast as the Presidency of the United States.'

Rochambeau.—'Washington was a soldier, and the best President you ever had. Cromwell the Ironsides, governed the British Empire better than any King that ever sat in St. Stephens. While Bonaparte was the product of military science, and the creature of War, he was the ablest civil administrator that France ever had.'

Ashley.—'Are you communicative at my will with the animating spirit of Winfield Scott?'

Rochambeau.—'I am.'

Ashley.—'What is that spirit?'

Rochambeau.—'The spirit of my illustrious countryman Bayard, 'the cavalier *sans peur et sans reproche*.''

Mr. Ashley seeing fit to quit the Circle here for some reason, the connection was broken. When it was reformed, Mr. Eckles, the editor of the Tuscarawas *Democrat*, was put in communication with the spirit of Thomas Jefferson.

Eckles.—Is the spirit of Winfield Scott, now a candidate for the highest office in the gift of the American Democracy, the spirit of a Democrat?'

Jefferson.—'Kaykay.'

The question was repeated, and the same answer being given, Brother Finney, of Oberlin, arose and said that the answer was in the Unknown Tongue, and was proceeding to interpret it. But a small boy, said to be the son of the Cleveland Postmaster, saw fit to disturb the Circle by laughing in Brother Finney's face, and crying out "K. K. can't come it,"—making at the same time a very remarkable gesture at the meeting generally, by putting the thumb of his right hand to the end of his nose, and rapidly working the four fingers, which were stretched out in the form of a fan.—Mr. Eckles shortly after repeated the question which was answered as follows:—

Jefferson.—He is a Democrat, who does his duties as a citizen and a neighbor."

Eckles—"Can a Whig be a democrat?"

Jefferson—"The Democrat is not the product of party. He only in society is democratic, who is just, benevolent and laborious."

Eckles—(with a pertinacity of manner I regretted to see.)—"Is Winfield Scott such a Democrat as you would have been willing to have had succeed you in office?"

Jefferson.—"Most assuredly—and to have retained that office during his life time."

Mr. Eckles here saw fit to disgrace himself by profane swearing, and some exceedingly injurious imputations upon the medium. Miss Bradley, a strong-minded young person from Salem, promptly led him out of the Circle to the door, and put him into the street, with some seasonable words of counsel addressed to him from the top step.—On the subsidence of this disturbance, the Rev. Mr. Balch from Summit County, resumed the questioning of the spirit of Jefferson.

Balch.—"Can the spirit of Scott be relied on to maintain the rights of Humanity?"

This question, on the explanation of Mr. B. was designed to ascertain if Scott was opposed the the extension of Slavery over territory now free—and if he would be averse to any alteration of the Fugitive Slave Law, that should make its provisions more stringent than Mr. Fillmore had left them.

Jefferson.—"Put your trust ever in a brave and an honorable man. Party cannot enslave him.—Power cannot corrupt him."

Balch.—"But will he not yield to the South in office, as he yielded to it on the Platform?"

Jefferson.—"*Honi soit qui mal y pense.*"

The answer being declared to be in the Unknown Tongue, Brother Tadger was requested to explain it. He however being of the opinion that it was not in that language, but in some other, Mr. Hawkins, of Elyria, insisted that it was in the Unknown Tongue, and would translate thus:—"all the advantage that the South gets out of that man you can just put in your eye." Mr. Hawkins bears a good character, and is of known zeal and approved spirituality. Otherwise I should be of opinion that he was at that moment trifling with the Circle.

Mr. Wadsworth, of Sandusky was next put in communication with the spirit of General Jackson, and proceeded to question that august shade.—The disturbance of the medium at this new connection was very noticeable.

Wadsworth—"Do you approve of the choice of the Democracy for a standard bearer in the coming Presidential contest?"

Jackson—"The political resources of the battle of New Orleans, were exhausted by the Democracy in my person. The battle of New Orleans constitutes the entire military capital of the Party."

Mrs. Finch, the medium, was here so evidently oppressed that Mr. Wadsworth forebore further questioning, and gave place to Miss. Mehitable Davis, of Toledo. She called for the spirit of Wilberforce.

MEHITABLE.—"Would it be fitting for the voters of the Western Reserve, to cast their suffrages for Gen. Scott?"

There was a confused answer to this. Pen and paper were handed to the medium, and immediately with a gesture of great impatience, she wrote in a heavy hand the letters N. C. Brother Tadger examined them closely, but took off his glasses without expressing an opinion about them.—They were passed around the Circle in silence, and again laid before the medium, who immediately wrote in a hasty manner, and a coarse hand, the word "*Nigford*." No one in the circle having ever heard this word in any language, modern or ancient, it was concluded that it was in the unknown tongue. At this moment that same small boy saw fit again to disturb the company, by leaning up against the wall on one leg, and holding his belly with both hands as if to repress an explosion, which, in spite of him fizzed, and sissed out of his compressed mouth and nose, in a very abominable fashion.

There was a great confusion in all the answers given now, for about a quarter of an hour. The medium on being questioned said, that evil spirits had intruded themselves upon the good, and were trying to break up the communications, or to make the answers to the inquiries from our Circle. When spiritual order again got ascendant, brother Tadger being troubled with a doubt about the permanency of our civil institutions, asked the spirit of Secretary Upshur, if the election of military men to public office was not dangerous to freedom.

Upshur.—Cease to chew chaff. Be practical—see real dangers. I tell you that the treaty is already signed, sealed and registered, which with Pierce as President gives you Cuba, cuts up Texas, annexes more of Mexico, and makes a slave State out of Southern California. The Southern end of the Union, overweighted by slavery, *may* break off from the North. In that event, wo to the White and wo to the Black!

Tadger.—Are we in the line of our duty, when in selecting men for public office, we overlook distinguished civil services, and—

Upshur.—Cease to chew chaff! Be grateful very grateful, for the priceless gift of a wise, an honest and a brave man to guide your country through the troublous future. The country will need such.

Tadger.—'The resolutions of '98'—

Upshur.—'Tabled at Lundy's Lane—repealed at Cerro Gordo! Oh-kay-sir! Oh-kay-sir! Oh-kay! (in a light and playful tone.)

Mrs. Finch here returned to her normal condition, and the circle broke up. While Brother Tadger and Mehitable Davis were conferring aside, upon the signification of the three concluding exclamations of the spirit Upshur, that evil disposed boy was caught in the act of chalking upon Mr. Tadger's back, in large capitals, the letters O. K. He would have finished them to the round dot, if he had not stopped to fill his mouth with the chalk, to keep down a fit of giggling.

DIVORCES IN EARLY TIMES.—As marrying and giving in marriage seems to be the order of the day, we are reminded of the manner in which such unions were dissolved in early times, here among the rude settlers, when law was unknown, or like everything else, was adapted to the convenience or caprice of the people.—When a couple were dissatisfied or disagreed, the father took the refractory pair, and thumping their backs together like a couple of brick bats, pitched the husband one way and the wife the other, and pronounced the mystic words of "divorce." Thus they were restored to their "native element." Suits for alimony, like the substance itself, were not very extensive.—*Crawford Co. Courier.*

Gen. Pierce and his Backers.

Ever since the nomination of Mr. Pierce at the Baltimore Convention, we have been looking in vain for the "burst of enthusiasm" which Senator Douglas promised should follow the reception of his name as the candidate of the party. It was near a fortnight before the correct name of the nominee was ascertained, and placed at the head of the columns of the papers in his interest.—After that was at length done, an attempt was made to get up some military enthusiasm for him, and papers and orators proclaimed him a warrior of such a stamp as to throw into the shade Bayard and Crichton and the host of chivalric spirits of the middle ages, while modern warriors were not to be spoken of in the same breath. An astonished people—astonished at their ignorance of the existence among them of such a paragon of chivalry—turned to the record, and found that Gen. Pierce acted his part in the Mexican war, according to the testimony of his commanders, with about the same bravery as did thousands of others, but from various accidents and illnesses, did not distinguish himself much in actual battle. His friends took a short tack, and brought forward the shade of Gen. Jackson, and the late John Tyler, to testify to civil abilities, unsurpassed in ancient or modern times, and the sorrowful faces of Messrs. Cass, Douglas, Buchanan, Marcy, &c., brightened through their tears, as they learned what a giant had slain them. Again turning to the record, the people learned that the services of Mr. Pierce to his country while in Congress were pretty much limited to an eloquent speech against giving a pension to the widow of the lamented Gen. Harrison, and to the most strenuous and persevering opposition to all appropriations for Western Harbors, Rivers, Lighthouses, and Fortifications. No great enthusiasm could be aroused in this section of the country at all events, for a candidate of that color.

So our democratic friends have been casting about for some other topic upon which to expatiate, in their commendations of Mr. Pierce—meanwhile amusing themselves by publishing all sorts of abuse and insult relative to the gallant old Soldier who happens to be the opposing candidate.

But help has come at last, when help is most needed. Before we allude to it, however, let us recall certain occurrences of the past. In 1842, the Whigs were in power. They came into power, partly, by promising to do something for Home Industry, which had been completely paralyzed. They did something—they passed the Tariff of '42; and, as if by magic, the hand of industry was raised again—the wheels of the manufactories whirled their busy round—the laborer of every kind received a better recompense—the fires of the forges blazed brightly among the Pennsylvania mountains—the farmer found a better, surer market for his crop. This was all very well for our side of the Atlantic, but meanwhile, English manufactures were in less demand. Philanthropic Britain, having perfected her system of industry, by long protection, and being provided with poorly paid labor, looked with zealous eye upon our prosperity. She saw the laborer and the farmer both well paid. So she fell into a fit of musing, and concocted a grand scheme for recovering her lost ground. She was taken with the beauties of *Free Trade*!

She sent missionaries to us to preach the doctrine. She sent documents by the ship-load to circulate it. Her Manchester League contributed liberally of funds. As the years rolled on, her efforts were redoubled. She gained converts. When Congress met in 1845, she had the President of the United States, and the Secretary of the Treasury, on her side. She had agents at Washington furnished with gorgeous displays of British goods with which to dazzle the eyes of members. The struggle was severe; the friends of Home Labor made a gallant struggle, but they were defeated, and the tariff of '46 was passed. The Irish famine came, sadly for Ireland's millions, but fortunately for Free Traders, to swell the export and price of breadstuffs for a season, but since that memorable year, our exports have regularly declined in quantity or in price. We have gone backwards, while England has gone forwards.

Now, the people begin to see and feel this, and they cry out for justice to Home Industry. A Presidential election approaches. The candidates are before the people. On the one side is the Whig army, anxious to do justice to American Labor—on the other the bogus "democracy"—anxious to aid the interests of a foreign country—to perpetuate our dependence upon Great Britain—to bring back the good old times when old mother England would not "let the Yankees make so much as a hob-nail." Now, the London *Times*, the great organ of the Free Traders, raises its banner again, and comes gallantly to the rescue of its friends on this side. Here is a portion of its article, alluding to the two candidates for the Presidency. Read it carefully, and mark it!:

> So far as the general interests of the Union and its relations with ourselves is concerned, *General Pierce has our best wishes for his success.*
>
> The primary question for the United States in this election, as it is for ourselves in the electoral contests of this week, is *the national sanction and inviolable establishment of the principle of free trade.* For, though no country is more interested in the adoption and extension of those principles than the American Union, the fight has hitherto been carried on against the avowed opinions of the executive government. Mr. Fillmore's messages and Mr. Corwin's reports have continued to avow protectionist doctrines worthy to rank with Lord Granby's political economy, and Mr. G. F. Young's statistics; and the country has only escaped the imposition of more restrictive duties by the fact that the present American government has never possessed a majority on these questions in the House of Representatives. *The triumph of the candidate of the Democratic party, brought forward by the men of the South, will secure, probably for ever, the ascendancy of liberal commercial principles,* and if Lord Derby should next year be disposed to take the American tariff for his model, we have little doubt that it will serve to remove the last illusions of the protective system from his mind. In this respect, and on this point, we take Gen. Pierce to be a fair representative of the opinions of Mr. Calhoun, and, as such, *a valuable practical ally to the commercial policy of this country.*

Yes! Gen'l Pierce has backers—and such backers! Friends of Home Labor!—friends of the farmer!—the artizan!—do you see the issue?—And will you meet it like men—or will you sit quietly and suffer yourselves to be cheated, deceived, again and again, as you were cheated and deceived in 1846? Shall the London *Times* and foreign commercial influence, and the visionary advocates of Free Trade, triumph—or will you take hold, and deserve and win the victory?

GALPHINISM.—Our neighbor of the *News* having worked itself out of breath with shouting "Galphinism," has been obliged to press the Cleveland *Plaindealer* into the service, and pile up an awful pyramid, rising from $890,000 to an apex of $30,000, and all resting on nothing at all, except partisan malice, rumors, beliefs, &c. &c.—One of the items of the edifice is the Gardiner claim—set down by these Loco Foco papers as a Whig swindle of $100,000. Supposing this claim to be false entirely, the U. S. treasury does not lose a dollar of it. The U. S. agreed to pay claims to a certain limit against Mexico. Among those proved was one by Mr. Gardiner. Before the money was all paid over to him, doubts were cast upon the genuineness of the evidence—very heavy bail was given, and Dr. G. has been nearly two years waiting his trial for forgery. If the crime is proved, the money will be paid back into the fund.

The only other item worth noting in the great pyramid, is the favorite "Galphin" business. And what does all this pother amount to? Why, simply this. Mr. Crawford, of Ga., was agent for a claim of the heirs of Galphin against the U. S. Congress had directed the Secretary of the Treasury to liquidate the claim. He (Mr. Walker) ordered the principal of the claim to be paid, but had no time to examine the question of interest, as he went out of office soon after. The subject was taken up by Secretary Meredith, and the interest was paid. If the claim was a just one, as Mr. Walker (loco) decided, then it was right to pay the interest, as Mr. Meredith (whig) decided. The whole thing is thus narrowed down to a question of delicacy, as to Mr. Crawford's remaining in the Cabinet while the claim was pending: and there are no two opinions about that. He should not have remained.

But is it not amusing to see our Loco Foco papers put on an afflicted air at the idea of forays upon the Treasury? Why, grant that the whole list of their charges against the Whigs are true, and double their amounts, and then you will not come near the vast sum which was filched from the Treasury by Loco Foco office-holders during Jackson and Van Buren's time. We have before us a list of defaulters, who stole over $8,000,000 outright, in those few years. Here were no claims to Congress—nothing but downright stealing: while there has not been taken from the Treasury by unfaithful Whig office-holders, $25,000 since the organization of the Government.—Galphinism, indeed!

THE UNIVERSITY.—The Madison *Palladium* alludes as follows to the remarkably foolish letter of the *Morning News'* correspondent, relative to Chancellor LATHROP and the Faculty of the state University:

> The writer calls upon the "Democrats of the State to inquire whether the Whigs are not attempting to make use of our educational system for the purpose of manufacturing Whig capital:" and further says, "if the writer is correctly advised, all the Professors of the University have been selected with reference to their party predilections;" and he then calls on the Democratic members of the Board of Regents to guard against such an abuse. If this is not attempting to raise a bugbear, we are no judge of such things. We have charity enough to believe that the affairs of the University have been carried on with strict reference to being free from party influences; and as every Regent has received his appointment from Locofoco Legislatures or from a Locofoco Governor, he must be a stupid man that can even suspect that the Whigs could influence anything in a party way if they would.

PIERCE AND KING AND THE SETTLERS.—On January 14th, 1839, the following proposition came up in the U. S. Senate:

> *And be it further enacted,* That when any of the public lands of the United States have remained unsold for the space of fifteen years after the termination of the public sales, the same may be entered and purchased by actual settlers on the following terms, to wit: If a settler is desirous to purchase for a residence, eighty, or less than eighty, or less than eighty acres, he may enter and purchase the same at fifty cents per acre.
>
> Upon this proposition the vote stood, ayes 21, noes 23. Among the noes were Franklin Pierce and Wm. R. King. The votes of Senators from Ohio, Indiana, Illinois, Kentucky, Louisiana, Arkansas, Mississippi, Michigan, and Tennessee, without regard to party, were given for this provision, which was defeated by the votes of Pierce and King.

GRAND DISCOVERY.—Senator BORLAND, of Arkansas, some time since made an elaborate speech, charging all sorts of extravagance upon President Fillmore's administration, and made out a "showing" to the effect that its average expenditure was some $13,468,000 more than that of Mr. Polk's four years. A week or two later, the same Senator took the floor, and corrected his figures, by making the difference several millions less.—The Loco Foco press publish the first set of tables, but entirely ignore the last.

Considering, however, that Congress has been Loco Foco all the time, and that all expenditures pass the ordeal of that body, it is difficult to see how the Whigs would be responsible for them, in any event. But when we take into consideration the fact that this administration has had to foot the bills for debts contracted by Mr. Polk's administration, resulting from the Mexican war, it is a wonder that the expenditures have not been greater.

CIRCULATING THE DOCUMENTS.—Clubs are constantly coming in from the country for our Tri-Weekly and Weekly issues, and the letters are filled with cheering accounts of the progress of the cause. From every quarter orders reach us for clubs of 10, 20, 30, and more. To one little village in the central part of the State we send 48 copies of the Weekly, and another batch is promised in a few days. We mean to do our part by sending the *Sentinel* at just about the cost of the paper, and our friends in the country are doing theirs by giving us the circulation which we wish, and so enabling us to do the better service in the Campaign.

☞ The *Wisconsin*, after alluding to the call for the Whig Congressional Convention, in this district, makes the following very gratuitous remarks:

> It is whispered about that Mr. TWEEDY is fishing for the nomination, and *that* is the reason *he* spoke and voted against the whig national platform at the Scott ratification meeting in this city.

The idea that Mr. Tweedy is engaged in the business so elegantly described by the *Wisconsin*, could by no possibility have been originated elsewhere than in that paper. It is so supremely silly, that anything of the sort might be expected from it.

A HOT DAY.—The "Local" of the New York *Tribune*, was afflicted a few days since with the state of the atmosphere, and ventured upon a description of it, a portion of which follows:

> For the day was one of those crises in Summer, when ordinary suffering rises to the dignity of enjoyment, and ordinary heat assumes a coolness positively grateful. "The sky shall be brass above you," saith the Scripture, and so, indeed, it was: for
>
> "All in a hot and copper sky
> The bloody sun at noon,
> Right up above the City stood,
> No bigger than the moon,"
>
> but a terrible sight hotter. Thermometers, no longer centigrade, became roamers to a high degree; in fact they have scarcely ever been so far-in-heat before.

THE SECOND WARD BOYS MOVING.—We publish this morning a call numerously signed, for a gathering of the Scott men of the 2d Ward, to be held this evening at the Chestnut St. House, to form a Scott Club. The boys wish us to give our Lisbon friends fair notice that they take up the gauntlet, and mean to win the banner. The call is signed by working men, and they mean to work in earnest, and to storm old Gibraltar, and hoist the Scott flag there in triumph in November. A glance at the names signed to the call, will satisfy anybody who doubts, as to the sort of stuff the 2d Ward Scott men are made of.

"POTOSI SIGNAL."—The second number of a handsome looking sheet under this name has reached us. It is published by David and Rob't McKee, at Potosi, Grant Co., and is "democratic" in politics. It is edited with a good deal of ability, and deserves the support of the party in that quarter.

MORE LANDS FOR EDUCATION.—On the 22 inst. the bill granting public lands to the several States which contain them, for the support of schools, came up in the Senate and was ordered to be engrossed. This bill gives an additional section to each township.

SECOND WARD SCOTT BOYS RALLY!!

A meeting of those friendly to the election of SCOTT and GRAHAM will be held at the Chestnut Street House, in the Second Ward, on Wednesday 28th inst., at 8 o'clock P. M., to organize a 2d Ward Scott Club.

Chicago by a New Yorker.

A friend down east has sent us the following copy of a letter written by a facetiously disposed New Yorker, who not long since visited Chicago. Doubtless the writer visited Chicago in hot weather, and took this method of keeping himself in good humor. What he says of the harbor at that place will apply elsewhere, without much stretching of the imagination:

From a New Yorker on a Western trip.

CHICAGO, June —, 1852.

DEAR M——: I strolled through the city this morning with E. and Mr. B. E. asked me if I did not think it was a beautiful place. I wanted, being a guest, to do the civil thing, but really this was a poser. Being a conscientious man or at least having some remains of a conscience, my lips would not work themselves into any kind of a yes. I told E. I would try to praise it for anything else. I had no doubt it was what the Yankees call a "smart place"—a tremendous place for business, a most thriving, flourishing place, a growing, active, wealthy place—a most social, bustling, lively place, a capital place to make money in, a place full of pleasant people—indeed that it was all sorts of a place except a beautiful place.—A more straggling, flat, dusty, ugly looking town surely was never before forced into premature existence. In size it seems ambitious to occupy as much useless space as would make half a dozen well built cities of equal population. It goes straggling about over the prairies as if uncertain what direction it preferred to spread itself, and so tried all directions in rotation, leaving, meanwhile, huge gaps everywhere entirely unfilled. The streets are wide enough to allow good sized villages in the middle of them without their being in the way, and as the houses are generally small and low the sun has free range and the dust still freer.

Shade is out of the question: clouds, or rather whirlwinds of dust go careering madly through the unmeasurably wide streets, as if in furious search of something to light upon. If they once find the little buildings scattered along the sides, and which I am told are inhabited, they will share the fate of of Pompeii and Herculaneum, and be seen no more. I had a narrow escape from one of these dust whirlwinds myself this morning.—Being foolish enough to attempt crossing without a guide one of the widest and least settled streets I missed my way and became half buried before by dint of violent exertions, I reached the other side and found one of the inhabitants to tell me where I was. Knowing the dangers and difficulties that strangers labor under, they are probably very civil to them, for this one actually went with me for a considerable distance and seemed unwilling to leave me until he really reached the house I was in pursuit of. The founders of Chicago must have been possessed with the strange delusion that nothing else was necessary to the beauty of a place, but boundless width of streets—and so well have they carried out this idea that in some instances it is difficult to tell which is the width and which is the length. In foggy weather bells must be rung loudly on the different sides as a guide to the people in crossing. A straggling dirty looking piece of the lake pokes irregularly into a part of the town, and is called Chicago River, into which all sorts of strange looking canal boats—and other crafts continue to get and do something mysterious with their cargoes, as I cannot find where they put them.—Across this there are no permanent bridges, but only a sort of moveable or rotary affair, which if you get on one end of, thinking to cross over, very likely before you have proceeded but a few steps two or three men commence turning away at a crank and the thing whirls away from the street and stops in the middle of the river to permit some vessel to go by, while you stand perched on this floating causeway quite bewildered at this strange interference with your locomotion. Not satisfied with the width of this pit or river, the people here are digging away furiously at the banks to make it as wide as one of their streets, altho' how on earth they expect to cross it then, no one has yet told me.

We next wandered towards the part called by courtesy, the harbor. It is fortunate for the prosperity of Chicago, that the southern lake shores are so destitute of good harbors, as nothing but this fact could make it a resort for shipping. Two very narrow piers project from each side of the mouth of the river into the lake about six or seven hundred feet, like the open blades of a pair of scissors. Into this narrow opening every vessel is expected, either by good luck, or good management, to find its way, if not stopped by the bar at the entrance. In a gale of wind, this I am told is an exceedingly difficult matter, and a crowd often assembles on the piers to watch some unfortunate brig or schooner trying to get in. After repeated trials and rackings to and fro, and narrow escapes from dashing against one or the other of the piers, most of them run the gauntlet successfully and get at last into the river, although even steamboats have at times been obliged to abandon the attempt and go back into the lake to await better weather. For a vessel to get fairly between these two projecting horns or piers in a storm or heavy sea, would seem to my inexperienced eye, as difficult as for a man to put a sword into the scabbard when some one was busily knocking the point about.

With that spirit of enterprise peculiar to Chicago, I observed that its harbor, so called, had outgrown its light-house, and left it some half mile in the rear high and dry in the midst of houses and stores; although, from the influence of habit I suppose, they still keep the old light-house blazing every night, probabably to guide a small flat scow that serves as a ferry across the river at that point, and is hauled over by a rope stretched from one bank to the other at the expense of the Corporation. A similar misfortune attended my crossing here as at the revolving bridge. It seems it is the custom at this primitive ferry, although it is the only means of getting from one part of the city to the other for a considerable distance, to drop the rope to the bottom, not only when vessels are going by, but when they are soon expected. At the time I attempted to cross, three or four vessels crept leisurely by, and down went the rope. After waiting some fifteen minutes, and finding more vessels were *expected* soon, I turned away in despair to try my chance again at the whirling bridge, a half mile up the river.

I would tell you of some other curiosities of the place, but A. is waiting to take my letter to the Post Office, and I must reserve them for another occasion.

Horticultural Society.

The Committee, in offering the following premium list for the 2d exhibition, would earnestly solicit, not only the assistance of every member of the society, but the co-operation of the citizens generally, in order to enable them to carry out the objects of the society. Without that assistance and co-operation they can do but little to accomplish the objects of the association, which are the introduction and cultivation of rare and beautiful plants and flowers, and the best and most productive varieties of fruits and vegetables. But with that assistance they trust soon to return manifold benefits in the influence of beautiful homes adorned by the rarest and finest of plants and flowers, and in increased and choicest varieties of fruits and vegetables.

In attending the exhibitions of the society, all can gain such information as will enable them, if they wish to purchase, to select that which is choice and of fine flavor from poorer qualities, and to learn where and of whom they can purchase plants of the best varieties, to take the place of those that now encumber their ground to but little profit. And to the ladies in particular, the committee apply for their countenance and assistance; so aided, they feel confident of succeeding and being able to extend the benefits of the society to all that come within its influence.

☞ A correspondent of the Buffalo *Commercial*, traveling in this State, discourses as follows about Milwaukee, the railroad, the crops, &c.:

> Considering her age, Milwaukee is behind none of her sister cities of the West in "internal improvements." The city is to be lighted with gas in a few weeks, and another year her water works are to be commenced. A gentleman from Cincinnati is engaged to plan and construct them, and they are to be done on a grand scale, such as the future wants of this growing city will require.—The design is to have two pumping engines of 120 horse power, each capable of forcing 7,000,000 gallons daily, of water into a reservoir capable of holding 15,000,000. It is designed to have ten miles of distributing water pipes laid to begin with—their bores to vary from four to sixteen inches. The cost is estimated at $325,000. Milwaukee now contains about 25,000 inhabitants, and when these water works are completed she may have 30,000. Allowing such to be the case, her supply of water for public and domestic purposes will, I believe, exceed, in proportion to her population, that of any other city on this continent. With such enterprise as her citizens possess, it is difficult to estimate the height of her aspirations, and her actual ascension. Be assured of one thing—hers is to be no medium flight.
>
> The Milwaukee and Mississippi railroad is gradually progressing westward. The first thirty miles is in use, and it will be open to Whitewater in a few days. It will doubtless be done to the Mississippi in two years. Meantime I hear that a railroad from this city to La Crosse, on the Mississippi, sixty miles above Prairie du Chien, is agitated. Surveys have already been made, and the object is not only considered feasible, but inevitable. The cost, it is estimated, cannot exceed $15,000 per mile. A meeting was recently held at La Crosse, at the close of which books were opened, and five hundred shares—the number necessary to organize the company, were taken, and five per cent paid in. Citizens of this place took the greater part of the shares. A road running from here to Prairie du Chien or near that place, and another to some point on the Mississippi sixty or a hundred miles further north, will be needed very soon.
>
> I have met gentlemen within three or four days from various parts of Wisconsin, and they invariably speak well of the Wheat crop. The kernel is plump and heavy, and the prospect is for a fair yield. The farmers are just beginning to gather it, and it does one good to hear their cheerful tones as they speak of the character of the crop this year—it having been for three years past almost a failure.

HON. M. M. JACKSON.—The Card of this gentleman announcing himself as a Candidate for Judge of the 5th Judicial Circuit, will be found at the head of our column. It is unnecessary to speak of Judge Jackson as an individual or his qualifications for this important place, as he has for several years, been personally known to most of our citizens. As a private citizen, we believe he enjoys the esteem and respect of all who are favored with his acquaintance.—His social habits we have never heard questioned, and all admit the Judge to be one of the most friendly social men living. His acquirements, as a classical scholar, as will be readily perceived from his conversation and public remarks, are of the first order. He speaks fluently, correctly and always to the subject. Having already served a term of nearly four years as Judge of this Circuit, the manner in which he has discharged his duties while on the bench, is the best criterion by which to estimate his capacity for the post, so far as our knowledge goes, he stands high in the estimation of the members of the bar, and in his adjudications has given general satisfaction to the litigant parties. Occupying as he does, the esteem and confidence of all parties in this Circuit, having proven on trial, his abundant capability of performing the duties of the office for which he again offers his service, we hope to see him honorably re-elected.—*Potosi Republican.*

A WHIG SPEECH IN TAMMANY HALL.—Among the amusing incidents attending the celebration of the Tammany Society at Tammany Hall on the Fifth, may be mentioned the fact that the best speech of the day was made by a warm Whig—no less a person than Col. Crockett, of Tennessee, a son and regular chip of the enterprising old block, Col. Davy Crockett, who was always bound to "go ahead" everywhere and under all circumstances. Col. Crockett had been invited to the banquet, and a toast was given to which he was to make a reply. When his turn came, he rose and avowing himself a Whig, remarked that of course he could not be expected to make a locofoco speech—and he then proceeded with an eloquent out and out Whig harangue, during which he lashed locofoco principles right and left without mercy. For a while the unterrified were taken aback; but in the end they so admired the audacity of the gallant Tennessean, that they not only listened to him, but applauded him with real Tammany Hall enthusiasm. We may, we think, with perfect safety, aver that such a thing as a Whig, and a Southern Whig at that, making a speech in Tammany Hall at a Locofoco gathering, has not happened before in the memory of the "oldest inhabitant." Col. Crockett has been a member of Congress for some ten years, and is as good a Whig as there is in the land.—*New York Courier & Enquirer.*

City Matters.

THE BAKERS.—This band of singers for the hearts of the million, performed at Gardiner's Hall on Monday evening to a very full house, and gave excellent satisfaction. Their voices are well trained, and the effect was admirable both in the solo and choral parts. They go south from here, and we cordially commend them to the attention of the craft.

THE GOLDEN GATE.—We should do injustice to ourselves if we neglected to bear our testimony to the easy running, neatness, quietness, capital fare, and general good qualities of the *Golden Gate*, as well as the constant efforts of Capt. Whitaker to make his living cargo comfortable, as experienced by us in our late trip home from the North.

☞ GEORGE BRIMER, recently from Liverpool, wants information of his brother, ROBERT BRIMER, Engineer, who left New York six or seven years ago, to purchase land in Wisconsin. Any information respecting him will be thankfully received by the undersigned, care of A. D. Campbell, Lake-st. Milwaukee. GEORGE BRIMER.

THE CLIPPER BACK AGAIN.—The crack schooner *Sam Hale*, Capt. SHORTS, made her way into port night before last with a full cargo, in twenty days from the time she left here last. This concludes her *fourth* trip around since the 1st of May. That will do!

1st. PRESBYTERIAN CHURCH.—A large gang of laborers are at work taking out a part of the foundations of this Church, preparatory to an enlargement and considerable repairs. Until they are completed, we learn that the services will be held in the Free Congregational Church on Main-st.

MILWAUKEE AND FOND DU LAC R. R.—We are pleased to learn that at the opening of the books of this company on Monday, the necessary amount of stock was subscribed to organize the company. We trust that there will be no delay in pushing on with the enterprise.

CONCERT ON MONDAY EVENING.—The numerous old friends of Mr. Bode, well known in this city a couple of years since as a performer and instructor on the piano-forte, will be glad to learn, is to give a concert on Monday evening next, assisted by Mr. FELIX SIMON, a French artist on the violin. We do not doubt that Mr. Bode's friends will exert themselves to ensure a good house.

LECTURES.—Dr. A. MILES lectures this evening on Human Physiology at the lecture room of the Plymouth Church. The first lecture is for both sexes, but the remainder for ladies exclusively.—The course is given without fee.

MRS. BOSTWICK.—We are informed by a despatch from her agent, that Mrs. BOSTWICK will be here and give one or two concerts next week, the first one to be given on the evening of the 4th (Wednesday.)

FOR BUFFALO.—The good steamer *Sultana*, Capt. Appleby arrived yesterday with a large load of passengers from below. She leaves here to-morrow evening on her return trip. H. K. JEROME is the agent for the line around the lakes.

THE CIRCUS.—The circus yesterday attracted a large crowd of spectators. The riding is very good, and the feats of strength displayed are quite remarkable. They have another performance to-day, at two o'clock, and this evening at 7 o'clock.

CIRCUIT COURT.—The Clerk of the Court, H. K. WHITE, Esq. gives notice that there will be a special term held commencing on the second Monday of next month.

THE BERLIN.—This small craft has been running for several days between this city and Dubuque. We hope she will continue as a regular packet. She is at present in charge of our old acquaintance and enterprising friend, Harrison Reed.—*Galena Adv.*

JOHNSON'S
CHEMICAL HAIR INVIGORATOR.

THE EFFICACY of this justly celebrated embrocation for invigorating, beautifying, and imparting a glossy and silken softness to the hair, is now so widely known and acknowledged, that it has gained, by its merit, a reputation which is not for a day, but for all time. It is the province of science to subdue and control those physical evils which refined civilization has brought in its train; and so long as warm rooms and tight hats, with the combined agency of other influences, exist, will thousands of unhappy victims be troubled with bald heads and grey hair, to say nothing of the various cutaneous diseases to which the head is subjected. It was to relieve these evils that the

INVIGORATOR

was introduced.

MORE OF THE FISHERY TROUBLES.

Vessels of War Fitting Out!

New York, 27th.

Orders have been received at the Navy-yard to get the frigate *Constitution* ready for sea. The sloop of war *Warren*, brig *Dolphin*, and one or two other vessels lying at the yard, have been ordered to get ready for sea at once.

Boston, July 28.

The Newburyport *Herald* of to-day contains the following:

The U. S. frigate Philadelphia and sloop of war Boston have been ordered to the Bay of Fundy for the protection of the American fishermen.

The owners of fishing vessels in this port have deputized two of their number to wait upon Capt. Long, and advise him as to the nature and condition of the fishing grounds, and all matter pertaining thereto.

We learn from Eastport, that the Sch. Lubber was lately seized by the Nettle, and carried into St. Johns. It was at the time of the seizure off the land——. The case will be tried at the admiralty court of St. Johns. There are a number of vessels to sail from the towns as soon as they learn that they will be protected.

Terrible Fight with the Camanches!

New Orleans, 26th.

Two Government expresses have arrived from the plains, who report the massacre by the Camanches in a fight of several days, of Capt Marcy, Serg't Shumand, S. S. Suydam, of N. Y., Capt Sprague of Fort Ouachita, and 80 soldiers, and the expedition knocked in the head.

The Camanches intend also to attack Fort Arbuckle, and the forts on the Brazos. A real Indian war was apprehended.

Baltimore, July 27th.

The N. O. Picayune says that advices from Brownsville report that Caravojal was making strenuous efforts to attack the Mexican towns on the Rio Grande, and that he had robbed Avalos' train of $10,000.

There were 33 deaths by cholera in N. Orleans during the week ending the 17th.

Wm. Wilson, formerly of Newark, N. J., is supposed to have been murdered by the Indians near Vandensburg, as he had been missed some weeks.

Providence, 27th.

The funeral of the Rt. Rev. J. P. F. Henshaw was solemnized at Grace Church yesterday afternoon. The procession was the largest ever seen in this city.

Washington, July 27.

Hon. F. Martin, member of Congress, was yesterday nominated as Commissioner to China.— The President has not yet sent to the Senate the reply of the resolution calling for information about the fishing affair. It is said there are no documents in possession of government in relation to them, except the proclamation issued by Mr Webster.

THE MARKETS.

New York, July 27.

Rye flour and corn meal steady and quiet.— Grain; market for wheat good—large sales—2600 bus; corn damaged—demand good. Sales 4000 bus at 62@63c; for unsound 62½@64.

Whiskey—market quiet at 21 for prison—drudge 22c.

Provisions—very little doing in provisions— high price restricts sales. Sales at 19 75a19 87—for prime. Beef firm—receipts limited—demand good, 15a18 for Mess, 8a9 for Prime. Cut meat, sales 8 50 a 8 75 for shoulders. Hams 9½a10—Lard steady —sales in bbls. 11¼.

Buffalo, 27th.

The market this morning is barren of transaction in flour. There is no inquiry beyond city trade.

Nothing doing in wheat or corn. The only sale we hear of is 8000 bus at 45½ afloat. The supply is entirely adequate to the demand. Oats steady and firm, but no sale. Nothing doing.

Freights firm—60c on flour to New York—16½ on wheat—13½ on corn to Albany.

Washington, July 24.

The fishing troubles were discussed in the Senate at great length. Mr. Mason introduced a resolution calling upon the President for as full information of the diplomatic correspondence as was possible in regard to the treaty of 1818, and the questions which have arisen relative to the fisheries since the signing of the convention.

The resolution also requires information if any naval force has been sent by our Government for the protection of the American fishermen

The terms of these requests were sustained by Mr. Mason in a strong speech, in which the assumption of England in ordering an armed force upon such an expedition, without previous notice of such action, is severely condemned. The resolution was sustained by Messrs. Cass, Seward and others, and was adopted.

Constitutional Governments in Europe.— The fall of liberty in France is of itself the severest blow that could be inflicted on the constitutional cause. In Germany an attempt made to give a more constitutional and popular character to the Confederation, has resulted in a deplorable failure. In many of the minor States, as in Hesse Cassel, the Constitutions which had flourished longest, have been uprooted and destroyed. In Prussia a species of representative Assembly has been called into existence, but it neither speaks the will of the nation nor controls the acts of the Government, and its chief danger is, not from foreign influence, but their inanition. In Hungary one of the most ancient Constitutions of Europe has disappeared altogether, and we need not add, that the constitutional schemes of Austria are unfulfilled.

In Sardinia constitutional monarchy has been tried under very favorable circumstances, and with great success for three years. But within the last few days their own principal organs declare that the cabals of the Chamber have rendered all government impossible, the Cabinet—able and excellent as it was—has been broken up, and the King will probably be reduced to try the chances of a dissolution.

To say the truth, the little kingdom of Belgium and the lesser States of Northern Europe are the only parts of the continent in which we can venture to rely on the self-supporting power of national freedom. Everywhere else the institutions which we desire to see extended are languishing and insecure.—*London Times, May 22.*

Congress.—In the Senate yesterday, several prominent Loco-Focos practically abjured their platform on the subject of Internal Improvements by the national Government, for the purpose of supporting a bill for a ship canal around the Saut Ste Marie. Whenever their particular interests are concerned, they are qualifiedly in favor of such improvements, because a contrary course would ruin them with their constituents; yet they are pledged to oppose any general and liberal system, and every snag that they pull from the Mississippi is a plank out of the platform. When they really mean to do service to the country and their constituents, they clamber upon the Whig platform, and talk loudly of the *national* character of the proposed work. Oh, consistency!—*N. Y. Tribune.*

☞ The *Democrat* is getting seriously alarmed because the Whigs are going to have an overwhelming Mass meeting at Niagara and calls it a "humbug"—to divert the attention of the people.

The only kind of a bug that would be appropriate to represent Gen. Pierce, is one of the "tumbling" species.—*Chicago Journal.*

A Base Fraud.—Our attention has been called to a bill, of the old Chicago Marine and Fire Insurance Company, which has been but in circulation. The bill is a genuine of the plate of that defunct institution, but where that plate now is, or who put its worthless impressions in circulation, are unknown. It is sufficient to say there is no such Bank now in existence.—*Chicago Tribune.*

$25 REWARD.

A reward of Twenty-five Dollars is offered for the arrest and conviction of the thief; or Ten Dollars for information that will lead to the detection of the thief. A liberal reward will be given for the recovery of the Cows.

MISCELLANEOUS.

THE TRIBUNE.

SCOTT Leads the Column!—Forward!

"Now, brothers, now is the hour!"

THE publishers of THE NEW YORK TRIBUNE proffer copies of their regular and full Weekly issue (eight large pages, each six columns, of Literature, Politics and News,) for the remainder of the Presidential Campaign, commencing with the 7th of August and closing with Nov. 25th, when we confidently hope to announce their triumph—on the following terms:—

1 copy for the 15 weeks	$0 37½
6 copies, to one address	2 00
10 copies do do	3 00
25 copies do do	7 50

Payment in all cases to accompany the order.

The selection of Winfield Scott for President and William A. Graham for Vice-President, has gratified our ardent wishes and strengthened our earnest hopes. Our conviction has long been fixed that Gen. Scott is the very man fitted and marked out by his heroic achievements—his inestimable services, at critical periods, in preserving our National tranquillity and preventing the effusion of blood—by his unquestioned integrity, his self devoting patriotism, his unsectional position and his humanity—to unite the Whig Masses in one enthusiastic, invincible host and lead them on to victory. So believing, we have labored and hoped for his nomination, and we now confidently look to the result to justify our sanguine anticipations.

The Tribune, standing on its own Platform and knowing no other authority but truth, will do its utmost for the election of Scott and Graham; but it will not be absorbed by Political discussion. We have chosen to proffer Campaign subscribers a large sheet rather than a small and cheaper one, because the postage is the same, and because we wish to extend the knowledge of what The Tribune habitually is. The letters of our Associate, Bayard Taylor, who next writes us from Syria, the ruins of Nineveh, Constantinople, &c., will appear every week, with reviews of new Books, Proceedings of Congress and the general Foreign and Domestic News of the Day. If there is another journal in America more valuable or interesting than The Tribune it is not because more money or labor is spent thereon.

All the Editions of The Tribune are printed in large Quarto form, on a sheet 31 by 42 inches, showing eight large and compact pages of reading matter. About half the Daily is devoted to Advertisements, very few of which appear in our other Issues. No ten dollar daily in the world contains more reading matter than The Tribune, which is afforded at $5 per annum, or $1¼ for three months.

SEMI-WEEKLY TRIBUNE:
One copy (per annum) $3; Two do. $5; Ten do. $20.
WEEKLY TRIBUNE:
One copy (per annum) $2; Three do. $5; 8 do. $10; Twenty do. (to one address) $20.

⁂ Payment is in all cases required in advance.

Subscriptions for The Campaign Tribune, or either of our regular issues, are respectfully solicited. All notes of specie paying banks taken at par and may be remitted at our risk. Please address

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!

THE TRUE

DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.— His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe This.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

HAWKINS'

STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length, of any required width, and in every respect to compare with the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

RADWAY'S READY RELIEF,

Is the first and only remedy ever recorded in the Medical History of the World that has stopped the most violent pains in a few seconds.

IT WILL STOP

THE MOST SEVERE PAINS

IN A FEW MINUTES, AND CURE THE MOST OBSTINATE AND TORMENTING RHEUMATIC, NEURALGIC AND NERVOUS COMPLAINTS

IN A FEW HOURS,

INTERNAL AND EXTERNAL.

IT WILL STOP

THE MOST EXCRUCIATING PAINS,

IN FROM THREE TO FIVE MINUTES!

AND HAS CURED

Rheumatism	In Four Hours.
Neuralgia	In One Hour.
Croup	In Ten Minutes.
Diarrhoea	In Fifteen Minutes.
Toothache	In One Second.
Spasm	In Five Minutes.
Cramps	In Five Minutes.
Sick Head Ache	In Fifteen Minutes.
Chill Fever	In Fifteen Minutes.
Chilblains	In Five Minutes.
Sore Throat	In Four Hours.
Influenza	In One Hour.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF

In a few seconds

WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.

PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconine, Belledonna, Aculea, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF

IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhoea,	Dysentery,
Bloody Flux,	Cholera Morbus,
Painful Discharges,	

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.

PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose limbs were bound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.

CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chill and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAYS MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored.
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson,

AT THE GERMAN MEDICINE STORE,

120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.

(From the Boston Bee.)

The Editor said, Dec. 31: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY,

One of the best literary papers published, said, August 25

"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine—We speak knowingly of Dr. Holland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co., of Buffalo, which is a worthless imitation and the pamphlets a "base forgery" which will appear by comparing them with the Genuine. "The certificates are copied *verbatim*." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer.
